Aaron Julian Sierra

About me

I went to New Zealand Skills and Education College where I got my two diplomas: Diploma in Business and Diploma in IT Technical Support. There, I reinforced my knowledge about programming and continued to learn a lot about C#, MySQL and .Net frameworks. After my studies, I then taught myself for almost a year about other programming technologies and languages. I recently finished an internship at MVP Studio; a software startup incubator, that gave me an opportunity to experience a real day to day job as a Software Developer and helped me improve my skills as a lifelong learner in this field

Work Experience

June 2022 - November

Software Developer Intern

MVP Studio

- I was encouraged to become a mentor in the company after finishing all the required tasks. Becoming a mentor gave me a chance to teach and guide new interns about the tasks they are doing. I was also responsible to review their tasks where I will be giving feedback or approving their tasks.
- I was given a chance to improve my communication skills and leadership skills during the internship
- I was given a chance to improve my technical skills in our stand up meetings and in our tech-chit-chat two days a week
- Modern web technologies was introduced to us interns during the internship such as ASP.NET core with React Template and Semantic-ui for the frontend

- I met a lot of developers and have worked with them in the advanced task including my mentors

September 2020 - December 2022

Pharmacy Assistant/Supervisor

Chemist Warehouse - Flat Bush

- Customer Service
- I was responsible on communicating the status of all the tasks to the managers
- Overseeing the store when managers are not working
- Handles merchandising
- Handling cash
- Maintaining the store's appearance for the next day
- Oversees the task for the day, making sure the team finished it.
